

AdValue Photonics Has Moved Into a New Facility

April 5, 2011

Tucson, AZ. AdValue Photonics has moved into an expanded facility with total area of 12,000 square feet. Effectively immediately, the new address is 3708 E. Columbia Street, Suite 100, Tucson, AZ 85714. The move is necessary due to the growth of the company's business experienced in 2010 as well as anticipated expansion in the next few years. AdValue Photonics is specialized in fiber lasers and related light sources/components in the spectral region of 2 micron. A series of new products launched in 2010 have received significant market attention and dramatically increased sales. The new facility will include fiber perform fabrication and drawing production, laser system and component manufacturing, R&D labs, and offices. The company's phone and fax numbers will remain unchanged.
